

Certification DIN 33870

The production of

Pelikan Hardcopy Production AG

is producing most of their cartridges with DIN 33870 .
Especially all products have to pass the tests below (necessary for DIN certification) during development:

AMES Test

Drop test according PV451.1
Folding test (toner properties)
Tape test (toner properties)
Store test (clima and time)

Additional there exist for each product a security data sheet.

All products have undergone the printing test with the template prescribed by DIN33870 or by ISO 19752 / ISO 19798 to circumstantiate the same yield as the original.
